

# Quick tutorial for completing work on Seesaw!

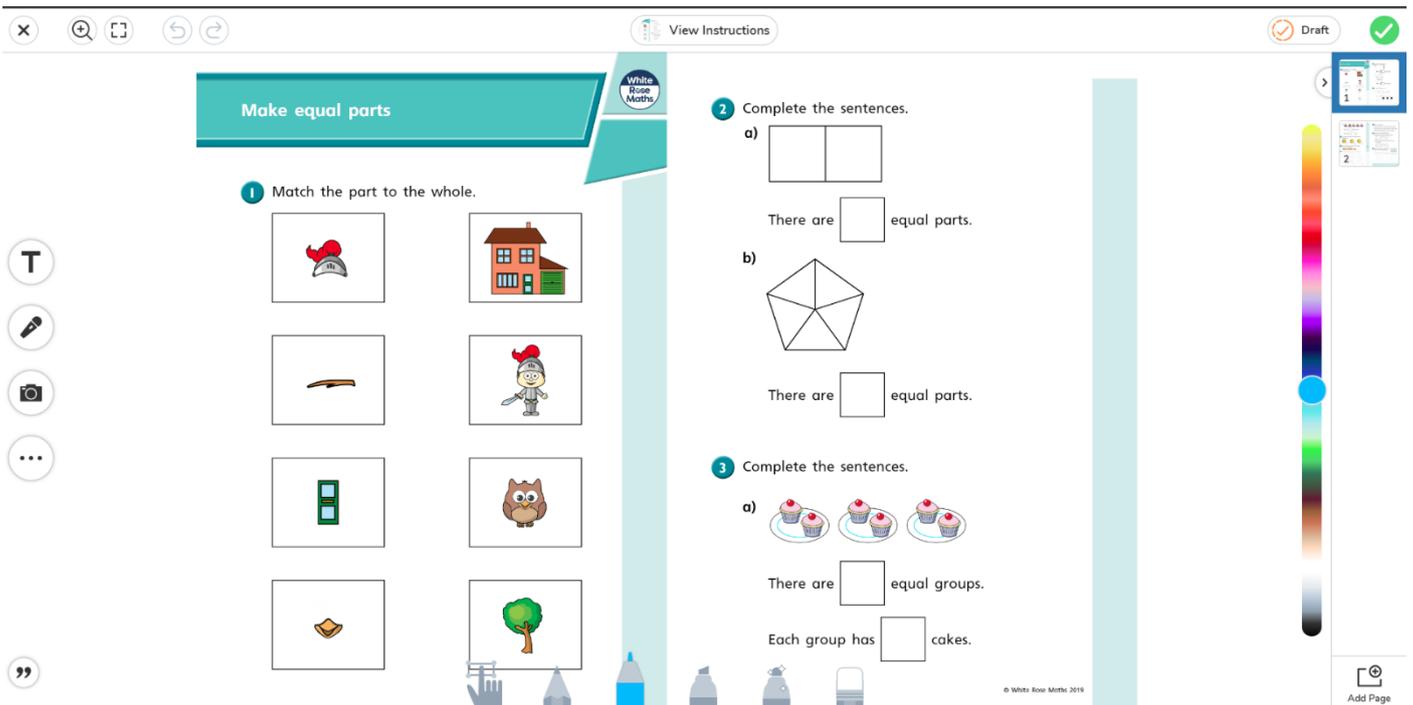

1. Sign in to your account using your text code given to you by your class teacher.

2. Select the challenge you want to have a go at. Read the instructions and then click add response.

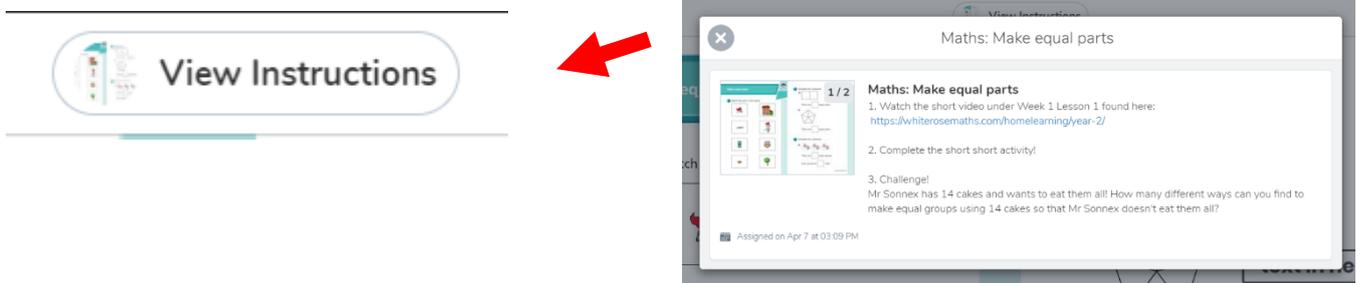

3. You should have a screen that looks similar to this, this is where you add your answers in drawings, videos, photos, voice recording or text!

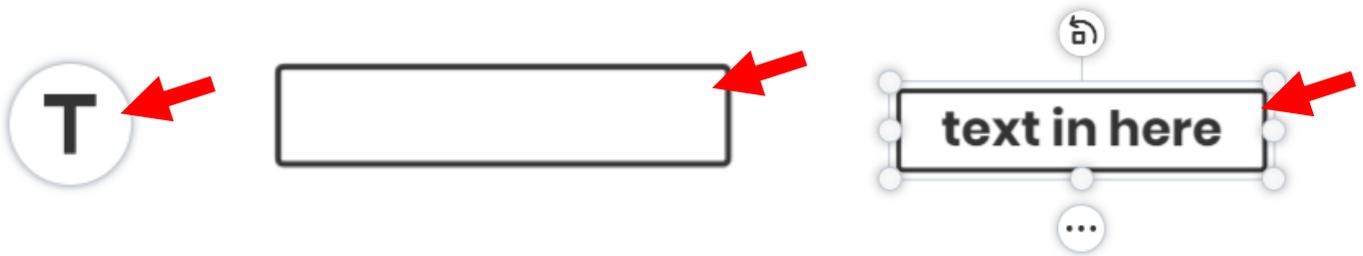

# Quick tutorial for completing work on Seesaw!

**View instructions:** This little button at the top will allow you to see the original instructions on the activity.

**Text tool:** Pressing this button will make a small box pop up. Pressing inside of this box should allow you to type into it. If the text looks huge and like it won't fit in the space given, don't panic! You can resize the box and all the text inside it afterwards by simply clicking the box again to enable to size and move options.

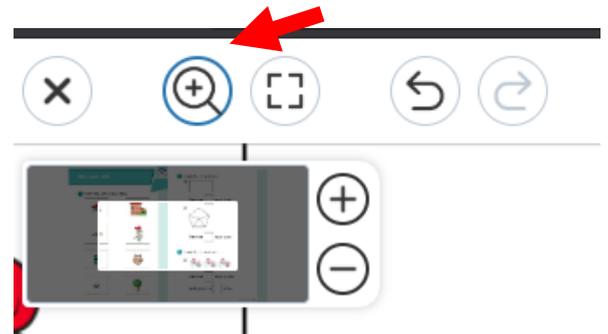

**Recording tools:** The microphone and camera buttons allow you to record sound or pictures to add to your response. This can be super useful when you are explaining how you know something to be true or to show a fantastic piece of work that you have completed that is not on Seesaw

**Drawing tools:** These tools at the bottom of the screen will allow you to freely draw, highlight, magic marker and erase anywhere on the activity.

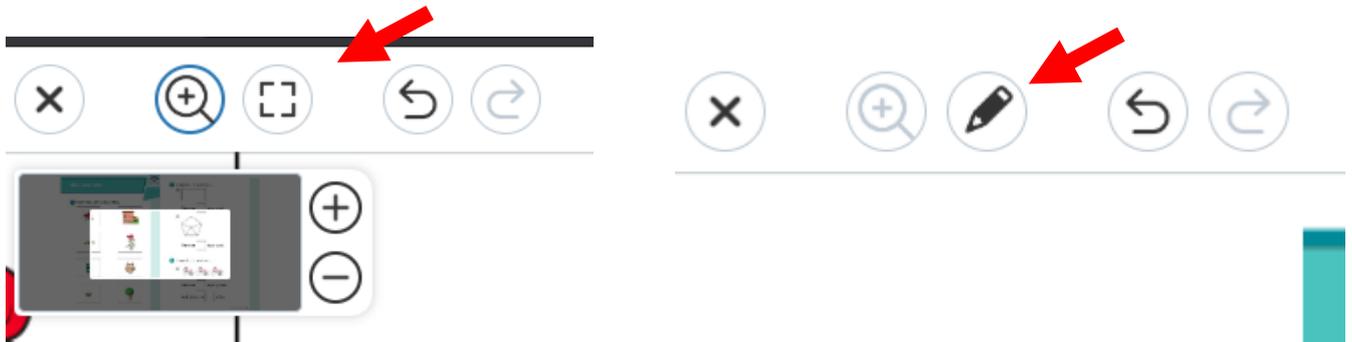

# Quick tutorial for completing work on Seesaw!

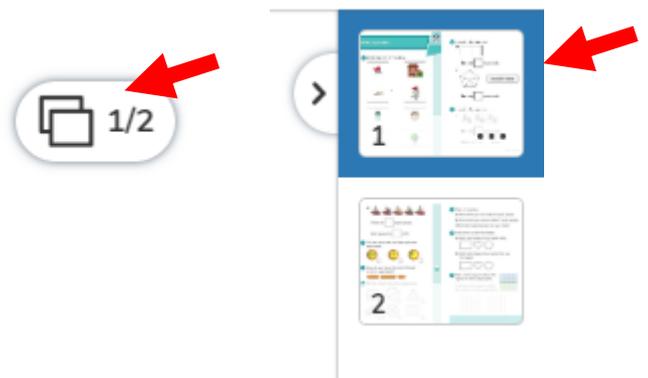

**Zoom tool:** In the top left of your response screen, you will see a magnifying glass with a + in the middle. This allows you to zoom into any work to get a better look or to add a smaller response.

**Hide tools:** Next to the zoom button is a small square, pressing this will hide the interface and turn the button into a pen. Pressing the pen will reshove the interface and allow you to continue editing!

**Multiple pages:** Some activities have multiple pages to them. You can see them on the right of the response screen.

**Completing an activity:** Once you are happy that you have finished the activity, you can click the green tick at the top right of the screen. If you need to take a break or want to come back to the activity later, you can click the orange tick and save what you have done so far as a draft.
