

YR - My Maths Targets

I can solve simple problems involving addition and subtraction

I can say which number is less

I can subtract two single numbers by counting back

I can say which number is more

I can subtract two single numbers using objects

I can solve simple problems involving sharing and doubling.

I can solve simple problems

I can explore the characteristics of everyday objects and shapes

I can order numbers 1-20

I can add two single numbers by counting on

I can double objects in small amounts

I can compare quantities of objects

I can find half of a quantity of objects

I can recognise, create and describe patterns

I can count from 1-20 count objects

I can add two single numbers using objects

I can share objects in small amounts

I can use everyday language to describe size, weight, capacity, distance, time and money

I can find half of a shape

I can use everyday language to describe position and direction
