

**What I should already know:**

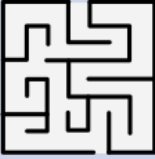

- State what products they are designing and making
- Can follow a plan of instructions
- Follow procedures for safety

**What I will learn:**

- To say whether their product is for themselves or others.
- To describe what their product is for.
- Plan by suggesting what to do next.
- To mark out, cut and shape materials and components.

Key Facts

- A product is something you use.
- A user is someone that uses it.
