PTFA Fathers Day Event

CONGRATULATIONS  
TO MRS HODDER  
(PREVIOUSLY MISS MILNER)  
WHO GOT MARRIED THIS MONTH

### Father's Day Sports Afternoon with TSC Coaches

Join us for a fun-filled Father's Day celebration featuring action-packed activities for all ages! Enjoy a fantastic afternoon of multi-sports led by professional TSC coaches, test your skills on the inflatable football pitch, and aim for the bullseye on our giant inflatable dartboard. It's the perfect way for families to get active, have fun, and make lasting memories together! Tickets also include refreshments.

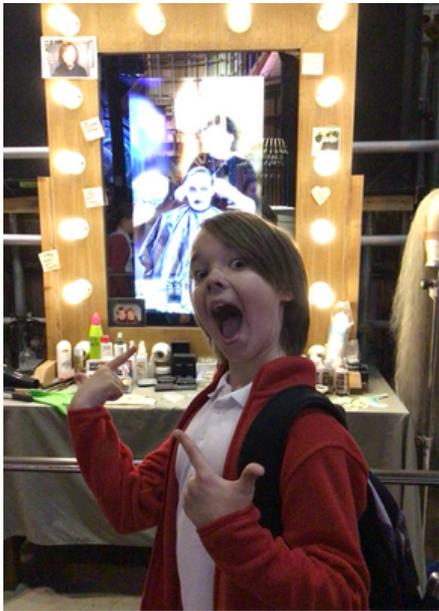

📍 South Avenue Primary School  
📅 The afternoon of 10th June 2025  
🏆 Cost: £5 per adult and £2.50 per child

[BOOK HERE](#)

# YEAR 5 HARRY POTTER WORLD

Year 5 had a truly magical experience on their recent trip to the Warner Bros. Studio Tour – The Making of Harry Potter. From exploring the famous Great Hall to stepping inside Diagon Alley, the children were captivated by the behind-the-scenes world of filmmaking. They enjoyed learning about the creative process, special effects, and props that brought J.K. Rowling's stories to life. It was an unforgettable day filled with wonder, imagination, and plenty of excitement!

# ROBLOX INTRODUCES NEW PARENTAL CONTROLS TO SUPPORT FAMILIES

Roblox has rolled out a new suite of parental control features, aimed at giving parents greater oversight when managing their children's accounts. These additions enable parents to block specific friends, gain deeper insights into their child's in-game activities, and adjust settings in real time to better align with their family's evolving needs.

## What's new for Roblox?

To make use of these controls, parents or guardians must link their own Roblox account to their child's account. This works to ensure that only trusted adults can oversee and modify parental settings. Once connected, parents can:

- Block individual users from their child's friends list, which also restricts any messaging or interaction with the blocked user.
- Restrict access to specific experiences, allowing parents to block their child from particular games or activities, even if they fall within the previously set content maturity level.
- Monitor time spent on Roblox, providing a detailed view of their child's screen time habits and highlighting which games or experiences they engage with most frequently.

## Updates to the Roblox Safety Center

Alongside these new features, Roblox has updated its Safety Center, creating a comprehensive hub filled with resources, guidance, and reporting tools. Recognising that tools alone aren't enough, the platform emphasises the importance of education, awareness, and access to support. By centralising these safety resources, Roblox aims to make it easier for parents to stay informed and actively involved in their child's online activities.

It's important to remember that no online feature is completely foolproof. However, equipping families with better tools whilst being supported by open communication are critical steps toward safer online experiences. Having open conversations about the purpose of parental controls and gradually adjusting them as children grow can help build trust and promote responsible digital behaviour.

For further tips and resources on how to keep your child safe online, visit our UKSIC online issues page.
