
My 2025 new years resolutions

New year's eve is spectacular because we stay up until midnight to watch the fireworks. We can eat a delicious midnight feast and a delicious brownie. When we watched the fireworks they were unique.

Last year my resolution was to try to sleep better and for longer. I used a comfy, soft pillow to help me and it worked. I can now sleep comfortably for eleven hours.

This year my resolution is to try to do rhythmic and artistic gymnastics. I am going to try to get more flexible. I am going to try to be a contortionist.

How will I do this.
I have to do some stretches and stretching. If I bend and try every day I will eventually I will become flexible.

Tommy
