Dear Mum,

Frequently, Camberwell has been collapsing. I am writing to you to tell you about the collapsing and to tell you I think and want to stay. There is a deadly new plant called the Blanches that produce spores. When you do agree to stay, we can order good online and have school online as well. I don't know if I told you but the school closed. I knew you don't like leaving the room or me coming in to I am writing this letter to you instead. Now, I am going to tell you why me and you should stay and live in Camberwell!

The first reason to stay is, you won't leave the house. I know you don't want to leave the house of your attack, soon, you will feel better and when you do I know that you will choose to ~~stay~~ leave. Sadly, we can't anyway because of the Blanches. The Blanches produce spores which will kill you. So we should just stay and live here. I or either of us leave the flat, a spore could kill us. It's that how you want me to die.

Secondly, is that we have plenty of supplies. We have food, water, clothes and money.

grab their supplies they left. Michael's Mum left their flat door open, so I can see their's for now. You barely eat, which means we will have some food for a while. Water is a very important thing to have. I will make sure that I will refresh it.

My last reason is that we might not have enough money, suitcases and clothes to make. We don't have enough money because you, my Mum, haven't and can't go to work anymore. Suitcases is something else we need because I am not leaving family hair-locks behind. We need clothes because it is hygienic to wear the same clothes all the time.

Mum, thank you for taking your time to read my serious, urgent letter. Just to reiterate, we should stay where we are because this is our home and we can't leave it. Mum, I know that you will agree with me, when I've finished writing this letter, because you love me and you can't say no to your one and only son. Besides, you can't leave because of your anxiety, which you got from the attack, and because all you want to do is sleep. In this situation, I understand why you think we should leave, but please don't make us. The police, that are also scared, are writing people to move for their safety. Please, please, please, PLEASE don't write to them.

Love from your one and only son,
Ade
