

# AFRICA

Africa is the second largest continent in the world and it is home to 54 countries! This term we will be learning about this fascinating continent.

As geographers **we already know** the names of the world's continents and oceans, how to use compass directions and how to identify different features on a map. We are also able to discuss famous geographical and human features across the world.

This term **we will be studying** the physical and human elements of Africa, including its climate, locating different African countries using an atlas, comparing life in England to a region in Africa and discussing social elements of life in Africa.

## Key Vocabulary:

Africa, Nigeria, Kenya, Nelson Mandela, Maasai, Savannah, Zambia, Egypt, Sahara, safari, atlas, climate
