

Year 1

SCIENCE

Animals, including Humans

What I should already know:

- Animals can be grouped in different ways.
- Animals in their habitats.
- Animals need food, water and air to survive.

Key Vocabulary

senses amphibians
mammals reptiles

What I will know by the end of the unit:

- Know about their senses and how they use them to describe the world. Identify and name the basic external parts of the human body.
- Recognise the functions of some body parts, including the sense organs. Describe and compare common animals
- Recognise and name a variety of animals and their body parts
- Construct and label a map of the human body
- Draw comparisons between human and animal body parts
- Consider how I treat other people and living things with care and respect.

The Five Senses!
